

Laminater

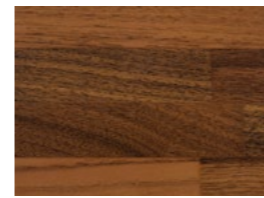

Fordele ved laminat

Bordpladen i laminat kan tåle vand og indtrængning af fugt i bordpladens overflade er ikke mulig.

Den meget robuste og slidstærke overflade er helt lukket, og kræver næsten ingen vedligeholdelse.

Hos Designa kan du vælge mellem 27 forskellige farver og mønstre i højtrykslaminat. Desuden er der forskellige former for kantprofiler. Det giver dig mulighed for at sammensætte en bordplade efter din egen personlige smag.

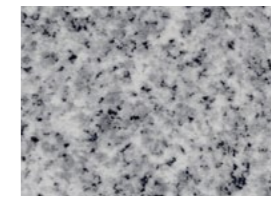

Laminatbordplader tåler let varmepåvirkning, men det anbefales altid at benytte afsætningsplader.
